

Break / Fix Runbook

EMS pack v0.1.6 · Agent 1.1.5 · branch desktop+agent · docs 2026-09-20

Repair production without wiping DB or enroll data.

Symptom	Fix
Staff still sees Advance pending	Pull API+web; hard refresh; confirm hide_money gate=ok
No notify sound	Bell → Test sound; click app once first (WebView2)
Updates column misaligned	Confirm latest CSS; hard refresh
502 after deploy	journalctl -u ems-api; SECRET_KEY ≥32; restart
Agent enroll lost after update	CRITICAL — robocopy must /XF config.json; restore backup
Tiny Download zip (~2KB)	SPA HTML served — upload real binary to /downloads/
